Chocolate Buttermilk Layer Cake

Ingredients

- 1½ cups (375ml) water • 190g butter, chopped
- ½ cup (50g) cocoa, sifted • 3 cups (450g) plain flour, sifted
- 1½ teaspoons bicarbonate of soda, sifted
- 3 cups (660g) caster sugar
- 3 eggs • ¾ cup (180ml) buttermilk
- 1½ teaspoons vanilla extract

Chocolate cream cheese frosting:

- 100g butter, softened • 500g cream cheese
- 2 cups (320g) icing sugar mixture, sifted
- ½ cup (50g) cocoa, sifted

Method:

Preheat oven to 160°C. Place the water, butter and cocoa in a small saucepan over medium heat and stir until the butter is melted. Place in a bowl with the flour, bicarbonate of soda and sugar and whisk to combine. Add the eggs, buttermilk and vanilla and whisk to combine.

Divide the mixture between 2 lightly greased 20cm-round cake tins lined with non-stick baking paper and bake for 60–65 minutes or until cooked when tested with a skewer. Allow to cool in the tins for 10 minutes before turning out onto wire racks to cool completely.

To make the frosting, place the butter and cream cheese in the bowl of an electric mixer and beat for 6–8 minutes or until pale and creamy. Add the icing sugar and cocoa and beat for a further 6–8 minutes or until light and fluffy. Using a palette knife, spread 1 cake with half the frosting and sandwich with remaining cake. Top cake with the remaining frosting. Serves 6–8.
